FROM LEVI OFFICE OF

SANTA CLAUS

Greetings, my dear friends! It's me, Santa Claus, writing to you all the way from the magical Arctic Circle here in Lapland. My little elves have told me some very exciting news... your wonderful journey to Levi is getting close! I can already see your names shining brightly on my Nice List, and I'm so happy that you'll soon be visiting my beautiful home region.

Levi is one of the most enchanting places in all of Lapland. There are snowy mountains for skiing, soft sparkling snow for building snowmen, and peaceful forests filled with reindeer footprints. At night, you might even see my sleigh tracks in the sky as I travel between the stars!

The weather in Levi can be very, very cold – sometimes even minus 20 degrees! So remember to dress warmly: wear lots of layers, woolly socks, thick mittens, and a hat that covers your ears. Even my elves wear two pairs of socks when they go outside to feed the reindeer!

In Levi, there are so many magical adventures possible – husky rides, snowmobile safaris, reindeer sleigh rides, and cozy evenings by the fire sipping hot chocolate.
And when you sit by a campfire, don't forget to try my very favorite treat – grilled sausage! You can find them in every supermarket, and they taste extra delicious under the winter stars.

The air in Lapland is crisp and pure, and the snow glitters like diamonds under the golden winter sun. And if you look up to the night sky, you might see the Northern Lights – we call them revontulet in Finnish. They are the most magical lights in the world, dancing just for you.

I can't wait for you to arrive and feel the true magic of Christmas here in Levi. Be kind, smile often, and enjoy every snowy moment with your family. The elves and I will be watching, making sure your holiday is full of laughter, warmth, and Christmas joy.

With love and Christmas wishes from the far North, Levi!

Santa Claus
